

**INSTRUCTIONS FOR COMPLETING THE
TANGIBLE PERSONAL PROPERTY SCHEDULE
FOR REPORTING
COMMERCIAL AND INDUSTRIAL PERSONAL PROPERTY**

Tennessee law provides that a **TANGIBLE PERSONAL PROPERTY SCHEDULE** shall annually be completed by all partnerships, corporations, other business associations not issuing stock, and individuals operating for profit as a business or profession, including manufacturers, except those whose property is entirely assessable by the Office of State Assessed Properties. These instructions for completing the schedule are in accordance with the TENNESSEE CODE ANNOTATED, Title 67, Chapter 5, Parts 6 and 9, and with rules for the assessment of commercial and industrial tangible personal property promulgated by the Tennessee State Board of Equalization.

The completed **TANGIBLE PERSONAL PROPERTY SCHEDULE** is to be returned to the Rutherford County Assessor of Property on or before **March 1** of each year. Failure to file the schedule will result in a forced assessment, and you will be subject to a penalty as provided by T.C.A. 67-5-903(c).

The data reported on the schedule is to include all tangible personal property used or held for use in your business or profession as of January 1, including, but not limited to, furniture, fixtures, machinery, equipment, raw materials, and supplies. These reportable items may not necessarily be owned by the business. **All assessable items must be included in this schedule whether or not fully depreciated in your accounting records.**

Do not report growing crops, the direct product of the soil in the hands of the producer or his immediate vendee, finished goods in the hands of the manufacturer, or inventories of merchandise held for sale or exchange. Also, property in transit through the state to a final destination outside the state is deemed not to have acquired status in Tennessee for the purpose of ad valorem taxation. Property imported from outside Tennessee is exempt from personal property taxation.

Tennessee Code Annotated § 67-5-903(b) permits a taxpayer to certify that a **depreciated value** of tangible personal property otherwise reportable on the form is \$1,000 or less in lieu of detailing acquisition cost. Therefore, if you feel the **depreciated value** of your tangible personal property, including leased equipment and nonstandard equipment is \$1,000 or less you may so indicate by marking the box on the back of the schedule and signing in the appropriate place. Such certification may result in you being subject to penalties for perjury and subject to statutory penalty and costs if it is later determined the certification is false. All schedules are subject to audit, and you may be required as part of an audit to list and document cost for equipment used in your business.

The following instructions for each section are intended as a general guide. If you have further questions regarding the schedule, please call us at (615) 898-7761.

The assessor’s staff may request clarification or further documentation. Types of evidence that may support nonstandard value are: recent appraisals of subject property, affidavits concerning unusual value influences relevant to subject property, and valuation guides for subject property.

Special statutory valuation of pollution control would be reported under this part. Enclose a copy of the pollution control certificates issued by the Tennessee Department of Environment and Conservation or their designee.
